District Highlights for the month of July :

Howdy, from Districts 1 & 3. This past month we held our last zoom only meeting. Prior to our meeting we had our service manual study prior to the meeting. The district meeting then commenced, with executive reports from all the board members. We had two motions on the table. Motion a, to host a technology in AA workshop then to have us resume our meetings in person. Both motions passed and next month we will host our first hybrid meeting, with the assistance of others as we have never done this before. While our plan to have a committee breakout session didn't workout due to the long discussion as our motions took longer than expected. Our executive board meeting will continue online and we will be working on meeting in person and online. District 3 has an ad hoc meeting on the first Monday of every month where they discuss meetings, gsrs and trying to conjure more participation. We were able to fill the grapevine chair with Chris, and GSR newcomers orientation chair with Jane. Thank you to everyone who is willing and able to serve.

Upcoming/Future District Events:
