April.

A nine from the chief to coordinator Rodrigo of the 18th district and Secretary Carmen. There were ten people at the table, except one. How does anonymity work? And how anonymity works, which is the main basis of our program. And as a committee it is important to always put anonymity first and do something that if it is necessary to use your first and last name, always present yourself as a member of the Alcoholics Anonymous community. You have to study the book, the manual, to understand anonymity and how to talk to people. How to speak in front of people who are not alcoholics, always remembering that the purpose is to pass what Alcoholics Anonymous does, what it does not do does not prove that no one between those two so that we see how the acts operate the professionals. Try to maintain constant communication with the professional people of the local community, bring brochures to church clinics and make them willing to go and give more than they want. Use letters through emails and social media communication. Rely on the cooperation brochure like the web and base ourselves on the cooperation brochure with the professional community. And the key is to always be active and also use the letter to OSCE health professionals. Sometimes it dissipates. Who can? Who

qualifies to be part of these committees? To be part of these committees requires goodwill. Any alcoholic is welcome to join a committee as a liaison or as a volunteer, but the coordinator has to leave the district and have already gone through the CPR service and thus the coordinator forms his goal by motivating the groups that send his liaison and motivating volunteers. Study the guide studies with liaisons and volunteer alcoholics to learn how to share in front of people who are not alcoholics. Anyone is welcomed to a committee and learn how to do, how to pass the message on to people out there who still suffer with the problem of alcoholism. The door was closed with the reception uninhibited. Thanks for. Let's go now.
